HARD TIMES IN EUROPE.

POOR PEOPLE IN BERLIN WILL WANT FOOD.

Bread Riots in Russia Punished by Exile to Siberia—Prince Ferdinand's Romance—The Czar's Silver Wedding—Hungarian Radicals.

LONDON, Oct. 8.—A Vienna dispatch says that the resolution of young Prince Ferdinand, heir to the Roumanian throne, to resign his inheritance and marry Mlle. Vacaresco, having been communicated to that lady, she has written to the Prince to forego the intended sacrifice, and to put off for some future time the fulfilment of his purpose. The Prince is said, however, to be unalterable in his determination.

HUNGARIAN RADICALS.

The Hungarian Government has expressed its disapproval of the extreme Radical agitation by refusing to approve the choice of Meyer Munsterberg, a Radical agitator, as town treasurer of Merk, on the ground of his active participation in advancing his Radical views.

WANT IN BERLIN.

As the cold weather approaches there is a marked increase in the want and misery among the working classes in Berlin. In order to get rid of the more dangerous and able-bodied they are given work in the North Sea Canal and other public improvements away from the city. This cannot be done with the aged and infirm, and the departures hardly make a preceptible difference in the number of paupers apparent on every hand. In other cities of the Empire, especially the industrial centres, there is more poverty this year than last year about the same period, and the high price of bread makes the lot of the poor more difficult.

THE CZAR'S SILVER WEDDING.

Preparations are being made at Copenhagen for the celebration of the Czar's silver wedding anniversary. Owing to the mourning for the Grand Dachess Alexaadria and King Karl of Wurtemburg, the festivities will be much less magnificent than at first intended.

MANUFACTURERS FAIL.

The Moritz woollen mills at Buda-Pesth have failed for 280,000 florins.

INVITED TO BERLIN.

A Berlin dispatch says that the Kaiser has sent a formal invitation to the Queen Dowager and young Queen Wilhelmina, of Holland, to visit Berlin.

SENT TO SIBERIA.

St. Petersburg advices state that 500 peasants, recently arrested at Ekaterinoslavsk, for taking part in bread riots and destroying the property of merchants, have been deported to the nearer colonies of Siberia.

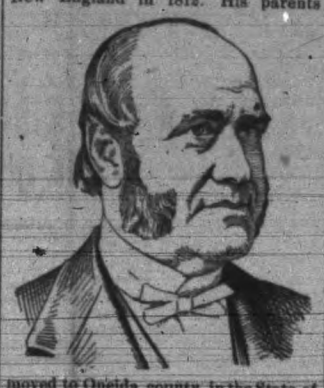
Nice Treatment of Chinamen.

BUFFALO, Oct. 7.—Yesterday at noon the deputy marshal's men took four Chinamen to the ferry for deportation, acting under the instruction of Judge Coffey, of the Federal court, who had ruled they were to be returned to Canada, as the country whence they came. When the four Chinamen arrived at Fort Erie, on the opposite shore of the Niagara River, a dilemma presented itself. Two had certificates of entrance to Canada and were accepted. The other two had none and were refused permission to land. They remained aboard the boat and were ferried back to Buffalo. Here they were not allowed to light because of the exclusion act, and so they remained on board the ferry boat plying back and forth between the two countries, taking in the river scenery, but very much in doubt whether they would ever set foot on dry land again. The captain of the boat was almost as distressed as the Chinese. He feared he might have to engage them as deckhands since he could not land them anywhere as passengers. Finally the Canadian authorities agreed to their landing in Fort Erie, provided they paid the entrance fee. This the Celestials willingly agreed to do. Each produced the required amount, $50.

REV. DR. BURCHARD.

The Clergyman Who is Said to Have "Killed" Blaine.

Dr. Samuel D. Burchard was born in New England in 1812. His parents



moved to Oneida county, in the State of New York. Young Burchard was of delicate constitution but with remarkable mental vigor. When he was 17 years of age he emigrated to Kentucky in the hope of finding restored health among the mountains. While supporting himself by teaching he prepared for and entered Center College. He was still at Danville, Ky., when the cholera scourge swept over the country. It was particularly virulent in that part of Kentucky. All through the reign of the disease young Burchard went from house to house nursing the sick, administering medicine and speaking words of religious comfort in the ears of the dying. His reputation extended far and wide, and in almost every town in Kentucky he addressed vast audiences on the subjects of temperance, religion and human rights. He was ordained a minister of the Presbyterian church, and after some months he accepted a call to the Houston street church in New York city. This church afterward moved to West Thirteenth street. After laboring nearly forty years Dr. Burchard retired and was made president of the Rutgers Female College in New York. On October 30, 1884, at a convention of ministers at the Fifth Avenue Hotel, New York, to help Blaine's canvass the Rev. Dr. Burchard delivered the address of welcome, in the course of which he said: "We are Republicans, and don't propose to leave our party and identify ourselves with the party whose antecedents have been 'Rum, Romanism and Rebellion.'" These last words are said to have defeated Blaine. Dr. Burchard died last week.

Useless Monster Guns.

NEW YORK, Oct. 7.—Edmund Yates cables to the Tribune: I hear from Chatham that the warship Benbow has arrived at that port to pay off her crew, and that three ships that are armed with those impotent monstrosities, the 110-ton guns, are to be kept in future strictly in reserve, so that their tender and almost useless ordnance shall not be prematurely worn out in the time of peace by firing reduced charges at long intervals. This is indeed a prudent step, especially, as I am informed, that for a long time nobody has dared to fire the Benbow's gun with a full charge; that the Victoria's guns are so defective that the superintendent of the Royal Gun Factory at Woolwich was telegraphed for from Ville Franche to proceed there at once from Hamburg, where by good luck he happened to be, to inspect them, and that the Sanspareil, the only other ship that carries the Elswick failures, is not to be allowed to carry out her usual quarter's expenditure of ammunition if she should be, which I doubt, attached to the Channel fleet. The sooner these three ships are supplied with guns that are serviceable, and not so entirely dependent on machinery for working them, the better.

San The Oreata's Adventure.

o'clock last night CISCO, Oct. 7.—About 7 Navigation Co. ing the Oregon Coal & Capt. Yarneberg, s steamer Oreata, beach west of the Fort shore to the house. Sentries went to the discerning the steamer's light guard the fog called, but received no answer. The Merchants' Exchange was notified and the tug Monarch went to the assistance of the steamer. A life-saving crew also went to the rescue, but when the tug and crew arrived on the scene no vessel was to be found. The Oreata docked at her wharf at 9:40 p.m., and a visit to the steamer disclosed the fact that she was the vessel which had been ashore. The watchman stated that the steamer had foggy weather from Point Arena, with light westerly winds. She was feeling her way into the bay when she drifted on shore. There were 12 passengers aboard and they became alarmed when the steamer touched, but as she did not bump much they waited patiently until the flood tide carried her off before damage was done.

Caused by Stimulants.

PHILADELPHIA, Oct. 8.—There has been a shake up among the officers of the revenue cutter Hamilton, stationed at this port. The third assistant engineer, Thos. B. Brown, has been dismissed from the service, Captain H. M. Blake has been placed on waiting orders, with three quarters pay, Second Lieutenant A. A. Lowe has been transferred to the revenue cutter Woodbury, stationed at Castine, Maine, and Third Lieutenant Hay has been transferred to the Gallatin at Boston. The changes are the result of a charge of too free indulgence in stimulants preferred against Engineer Brown. Capt. Blake is punished for leniency towards Brown.

THE DEATH OF PARNELL

CLOSING SCENES OF THE EX-LEADER'S LIFE.

The Prospects for a Re-Union of His Party Not Very Incouraging—A Suicide Report Emphatically Contradicted—Grief in Ireland.

LONDON, Oct. 8.—To-day the prospect of an Irish re-union over the grave of Parnell is less encouraging. The news from Parnellite associations, both in Great Britain and Ireland, confirms the anticipation that an attempt will be made to keep up the organization, with the same motives and aims heretofore. Much depends on a meeting of the Parnellite members of Parliament, which will take place soon after the burial of Parnell. If they should resolve to give up the contest it is thought that the various leagues would follow suit. The chances for harmony have not been increased by the bitter language of the Dublin Catholic, the organ of the bishops, and by the scarcely disguised hatred of the comments of the anti-Parnellite Dublin Press. Even if the Parnellites should dissolve as a party it is believed that many of them will either vote with the Tories or abstain from voting altogether. The dissolution, however, is at present doubtful, and one of the leading Parnellites said last night that they would probably wait for the other side to act. Undoubtedly one of the main obstacles to a re-union is the bitterness that has characterized the opposition to Mr. Parnell, as voiced more especially by Timothy Healy. In the face of death the Parnellites feel less than ever like forgetting the cruel attacks on Parnell and the woman who shared his later fortune. To Healy and one of his associates is attributed the origin of the rumor that Parnell had committed suicide, to refute which the family felt compelled to reveal the scene of the death bed, with all its saddening circumstances.

THE CLOSING SCENES.

The last time Parnell appeared in public was at Creegs, Ireland, Septem- 27, when he delivered a long speech on the attitude and alleged inconsistencies of Dillon and O'Brien. Upon that occasion Parnell stated that he was speaking in defiance of the orders of the doctors attending him, who had ordered him to keep to his room. While Parnell was speaking at Creegs it was noticed that he was very pale and in other respects not the same man he had been in the past. In addition he carried his left arm in a sling. He suffered from rheumatism. Mr. Parnell arrived home in Brighton from Ireland on Thursday, and complained of suffering from a chill. On Friday he was unable to leave his bed. His regular physician was summoned, who considered Parnell's illness to be serious and sent for another professional man with whom he had a long consultation. This consultation was resumed on Sunday, when Parnell was in great pain and growing weaker every hour. His sickness was pronounced to be an attack of acute rheumatism. He was untiringly nursed by his wife, who hardly left his bedside from the moment his illness was pronounced to be serious. He did not seem to rally, but grew weaker and weaker. Several hours before his death he became unconscious and he remained so till he died, in intense agony. Owing to the suddenness of the Irish leader's illness, and the belief of his wife and physicians that he would recover, neither friends or relatives were present when he died. There were only Mrs. Parnell and the physicians in the room.

A dispatch from Brighton, at midnight, says that no arrangements are yet known for the funeral. The district coroner says that he has not yet received any information as to the death of Mr. Parnell, and none of the relatives have yet arrived. The housekeeper, on being approached, refused to be a medium of communication with Mrs. Parnell or with Miss O'Shea, who desires that her mother should remain undisturbed. It is now stated that Parnell had congestion of the lungs, in addition to acute rheumatism. He became unconscious at seven o'clock Tuesday evening. The doctor was summoned to his bedside. They found him later in an obviously hopeless condition. From 8 oclock until the time of his death, Mrs. Parnell, Miss O'Shea and the doctors watched the side of the sufferer and alleviated his dying struggles. His senses would now and then be recalled for a short time, and then he would relapse into unconsciousness. He finally passed away before his wife realized he was dead. She had borne

LEADERS' OPINIONS.

Timothy Harrington, one of those who stuck to Parnell through all his late troubles, is inconsolable. He was in tears when seen by a correspondent, and said mournfully: "The fate of the Irish patriot, to suffer and die for his country, has been Parnell's lot." This utterance may be regarded as the key note of the feeling in Ireland, where animosity seems to have been dropped as if it had never been aroused, and it was only Parnell, the patriot, not Parnell, the ambitious wire puller, that is thought of as lying stricken by the sudden hand of death. There was hardly any business done in the Irish capital yesterday, nothing but Parnell being thought of.

Justin McCarthy in an interview said it would be impossible to forecast the political effect of the death of Mr. Parnell. He hoped that it would lead to a reunion of the Irish party and it would certainly not hinder the cause of Home Rule. He believed that all Irish hostility to Parnell was swallowed up in genuine and universal regret. Three weeks ago he had a long and friendly conference with Mr. Parnell at Mr. McCarthy's house. They mutually agreed to draw part of the Paris fund for the purpose of registration incurred before the division of the party. Before the divorce proceedings he had been a close friend of Parnell, whom he admired intensely. "Parnell consulted me," said McCarthy, "about his lamentable manifesto, and I used all my efforts to prevent it being issued, because it made his leadership impossible."

JOHN PARNELL.

NEW YORK, Oct. 8.—A Times special from Atlanta, Ga., says: A seedy-looking man of 47 years, dressed in a rough suit of brown, and wearing on his head a faded slouch hat—that is John Parnell, the brother of Charles Stewart Parnell. While Charles has been figuring so prominently before the people of Europe and America, his brother has been tending fruit trees on a little farm near West Point, 25 miles from Atlanta. He has been spending several weeks here, and when the first news of the death of the former Irish leader reached Atlanta, the brother could be seen hanging about the newspaper offices to see if the press despatches confirmed it. "I can't believe that he is dead," said he. "I have heard several times that he was dead, but the despatches had been contradicted later on. The only thing that makes me believe the report is the statement that he died suddenly. There were 12 children in our family, six of whom are dead, and everyone of the six died suddenly. Our sister, Fanny, who died last, was found dead in bed. Charles, and, in fact, all of us, are subject to attacks of nervous prostration, and if he is dead this may have caused his death." When the news of the death was confirmed, Mr. Parnell said: "My brother Charles was a great man. He was always fond of politics. He was not half so bad as he was painted. Most of the stories sent out about him were gross exaggerations. The story that he was not kind to our mother, was false, as he always looked after and sent her money. He loved us all, and but a short time ago wrote me a most affectionate letter, and I was in hopes he would come to America to visit me."

NEWS OF THE DANUBE.

She is on the West Coast—Trouble Brewing Among the Indians.

The steamer Chieftain, Captain Geo. Cunningham, arrived early this morning from the Skeena River with a full cargo of salt salmon. The weather along the coast has been very foggy during the last few weeks. The steamer Danube with the British sealing commissioners on board called at Port Essington on the first instant. They went from there to Queen Charlotte Sound and then returned to Skeena. The Chieftain then accompanied them to Queen Charlotte Sound where they met the steamer Louise with Mr. F. W. Vincent, the assistant manager of the C.P.N. Co. on board. The Danube and Louise were alongside of one another for a long while. When they parted company the Louise went north and the Danube started south. The Chieftain parted company with her on the fifth, the Danube going along the West Coast of the Island and the Chieftain on the East. The commissioners had to call at several stations along the West Coast to interview the natives, but they should nevertheless be here at any moment.

From what Captain Cunningha could gather it is evident that the commissioners are thoroughly pleased with their trip. They say that they have had a most pleasant time, and that the islands are literally covered with seals, as reported by sealing captains who have come down. Captain Myers, of the Danube, told Capt. Cunningham that it was a wonderful sight to see the islands alive with seals. The Danube visited the Russian as well as the Behring Sea sealing ground.

The Chieftain passed the Barbara Boscowitz going north yesterday.

Hon. P. O'Reilly, Indian Reserve Commissioner, from all reports, seems to be having considerable trouble with the Northern Indians. He went up to lay off reserves for the Indians. Capt. Cunningham says the Indians look with indifference on what is being done for them by the Government. They seem to think that the Government is only doing what has to be done. They are asking for exhorbitant grants of land, which, of course, cannot be granted. Judge O'Reilly, who has been in the Interior, was expected back to the Skeena when the Chieftain left.

Fight With a Mastiff.

PARKERSBURG, W. Va., Oct. 8.—A terrible fight is reported from Rock Castle, in Mason county, between a large mastiff, weighing 100 pounds, and Daniel Oliver, a wealthy farmer over 60 years of age. For some time dogs have been killing sheep in that neighborhood, and hearing a commotion among his sheep, Mr. Oliver went out with a large knife in his hand. He coupled with the dog, which was several sheep. After a terrific strug- Thinking dead in plunging his knife animal he then the dog's breast. rallied, and staggeringly wounded the him by the throat. BOARD OF ALDERMEN.

Matters and Business Before the City's Rulers at Last Night's Meeting.

The regular weekly meeting of the Board of Aldermen was held at the City Hall last evening. Present Mayor Grant in the chair, and a full board. Routine work was completed, the minutes of the previous meeting being read and before adoption.

Ald. Richards rose to say that he had been absent from the board last meeting and he objected to that part of the assessment by-law which fixed the rate on improvements as three-quarters of one per cent. He was of the opinion that land which was not utilized should bear the burden of taxation.

The Mayor remarked that it would be necessary to make a correction in the minutes of the previous meeting so as to place the tax of 1½ per cent. on real estate, one-sixth off if paid within the specified time, and ¾ of one per cent. on improvements, with like rebatement under similar circumstances. Personally he was in favor of a direct loan, but as the majority had decided on direct taxation he should say no more, except that he also favored a heavier tax on unoccupied land than on improved land.

PICTURES TAKEN.

The minutes being adopted, the meeting adjourned for 15 minutes to allow members of the board and officers of the city being photographed, as requested by Mr. Hebler.

Jones Bros. then posed the gentlemen assembled, and the button was pressed. Probably the rest will be done in a day or so.

The meeting being again called to order Assistant City Clk. E.C. Smith read the following

COMMUNICATIONS.

From Amor De Cosmos, complaining of the District Telegraph Company, and asking that the by-law be repealed, as the city had no power to make such a law. Also protesting against the fire department being hampered by the company.

A motion to receive and file the letter was met with opposition by Ald. Munn and Robertson, who asked that it be referred to the city barristers for report. The latter motion was carried.

From D. C. Patterson, asking the city to take over two streets near Saanich road, and also asking that Speed avenue be opened up.—Referred to the committee, city barristers and city surveyor.

From the Board of Aldermen of Vancouver, acknowledging receipt of endorsement of the B. C. I. & I. Co. and also endorsing the same.—Acknowledged with thanks.

From H. A. Crossdaile & Co., calling attention to the bad state of the old cemetery fence.—Referred to the cemetery committee.

From Walker, Pemberton & Dumbleton, re the arbitration case of Mr. McCaskill.—Referred to street committee.

AN ADVERTISING MATTER.

From J. C. Drury, asking permission to address the board on behalf of the Toronto Globe. Permission was granted and the board went into committee to allow Mr. Drury, who was present, to address them. Mr. Drury then explained that the paper he represented was publishing a series of articles on British Columbia and he had been sent out to prepare such articles. He pointed out the benefits of having the city of Victoria particularly well mentioned in the Globe. He offered to give the write-up with 10 illustrations for $300, or 13 illustrations, with 5000 copies of the paper, for $500.

The committee rose and reported that they had referred the matter to the printing and advertising committee. Report adopted.

From John Teague, asking street grades of Government and Johnson streets.—Referred to committee.

(E. E.) JAS. L. RAYMUR,
City Hall, Victoria, B. C., Auditor.
6th October, 1891.

The accounts for the month of September, amounting to $4,361.47, were passed for payment.

A MATTER OF GRADE.

From P. J. Leech, city surveyor, in reference to the grade on the corner of Government and Johnson streets, and explaining how it had been raised and slightly changed from the original plan. He also gave it as his opinion that the change would in no way hurt the streets, and was so slight as to be hardly noticeable. This opinion was coincided in by the Mayor and others. The only complaint before the board was one made by Amor DeCosmos.—The matter was referred to the committee and city surveyor. In connection with this matter Ald. Coughlan drew attention to the fact that the grade on Broad and Douglas streets was very faulty, and needed attention. The Mayor pointed out that it was very unfortunate that the grades had not been established long ago. He had years ago asked that the matter be attended to.

THOSE CEMETERY PLANS.

From Mr. Leech in reference to the bill for cemetery plans, said plans having been made to the order of the cemetery committee.

Ald. McKillican asked Mr. Leech what authority he had to go out of the limits of the city surveyor's office to get the work done.

Mr. Leech explained that he had told the chairman of the cemetery committee that it would be impossible to do the work in his own office, and he had understood from the chairman that the work was to be done.

Ald. Smith said he was of the opinion that the charge for the plans was not an excessive one, and the matter should be settled.

Considerable discussion ensued, and quite an amount of acerbity was introduced into the remarks made by Ald. McKillican, who took umbrage at something said, but the matter was finally arranged.

A motion was then made by Ald. McKillican that the bill of Mr. Gore be paid, and that the city surveyor be instructed that in the future the authority of the board should be obtained before outside assistance was engaged.

Ald. Hunter rose to speak against the latter clause of the motion, as it was apt to interfere with the work of the city engineer's office. He for one would not wish to censure the engineer for engaging outside help, as the speaker knew the great amount of labor on plans such as these, although it would have been better for the engineer to have advised the board of the fact that outside help had been employed.

The Mayor also suggested that the latter part of the motion should be changed, so as to allow the engineer to employ extra help when instructed by the board of aldermen or a committee.

Ald. Richards thought the whole trouble was the result of a misunderstanding. The city surveyor had understood that the work was to be done, and the committee did not know the cost, which was the cause of the trouble.

The motion was amended as suggested, and passed.

Ald. Renouf rose and said that as the cemetery question was before them, he would read the following from the Northwestern Review, and drew attention to its truth, and the disgraceful state of the old cemetery:

"The one spot which visitors leave with feelings of regret is the old graveyard. The desolate ruin, and wild, forsaken aspect of the place, where pioneer and stranger together sleep their last sleep, is a sad reflection on the city. It is pitiful, that in a whole city full, none can be found to tender care for this hallowed ground"

Yet here and there amidst the wreck is seen,
Some moss-grown tombs o'er which the ivy creep,
In constant clinging keep their memory green,
While aspen willows hang their heads and weep.

Ald. McKillican explained that the street committee had used all the cemetery funds, and none were available to fix the place up.

REPORTS.

From the street committee in re blocking of streets by contractors, and other matters, among which was the one referring to the claim of rent made for the use of lots for the storage of rock purchased from John Haggerty. This latter clause caused a deal of discussion, which was ended by the rejection of the report.

From the public market committee, recommending that insurance to the extent of $25,000 be effected on the building.—Adopted.

From the census committee, including statement of the work done.—Adopted.

From the chief engineer, reporting on the state of the fire department, which was in good order, save a few needed repairs to the floor of the Yates street engine house.—Referred to fire wardens.

WATER COMMISSIONER.

Ald. Holland moved, and Ald. Robertson seconded, that applications for the position of water commissioner be taken up and considered.

Ald. Renouf moved in amendment, seconded by Ald. Coughlan, that the matter be laid over.

Ald. Robertson wanted to know what this matter was laid over for, but was told that no member was obliged to give a reason for his vote.

Ald. Renouf said he wanted more time to consider the matter.

On being put to a vote the amendment was carried, and the applications were not considered.

RECONSIDERATION.

Ald Hunter rose to ask that the vote rejecting the adoption of the street committee's report be reconsidered, as only one clause had been objected to, and the whole report should not be killed.

In accordance with the suggestion the vote was reconsidered, and after a lengthy discussion, the matter was put to a vote, a tie resulted, and it fell to the ground. Considerable feeling was manifested in the matter, and it was evident that the rejection of the report was taken as almost an insult to the street committee, who felt very bitter over it. The report was an elaborate and painstaking one, and but for the clause re payment of rent for rock storage, was all right in the opinion of nearly all the board, yet when the motion to pass it except this clause came on, it was strangely enough killed by a tie.

At this stage an adjournment was carried, it being 11 o'clock.

A QUARTER OF A CENTURY AGO

There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing through a friend of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found lasting relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."

Oregon Kidney Tea cures backache, Incontinence of urine, brick dust sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.

STILL PREVARICATING.

The Colonist yesterday had another struggle with the contractor clause of the Abbott bill, and succeeded in getting more deeply imbedded in the mire. On Sunday it said:

If the Liberals were so desirous, as our contemporary represents, to put a stop to the practice of contractors subscribing to election funds, how is it that some of their leading men did not move the insertion of a clause making such subscription illegal? Here was an opportunity of proving their sincerity that should not have been allowed to slip.

On Monday the TIMES pointed out that the insertion of such a clause was actually moved by Mr. Laurier and accepted by the Government, with some changes. Now the Colonist would like to convey the impression that it had no means of knowing that Mr. Laurier took such action, and says that the intelligence was conveyed in the Winnipeg Free Press, which reached here on Sunday night. The fact is that the Free Press from which the Colonist quotes arrived here by Saturday evening's mail, before the Colonist's article was printed. The Colonist, therefore, cannot excuse itself on the ground of ignorance. Apart from all this, however, our neighbor knew from the commencement that it was libelling the Liberal press and party, and it should not whine like a whipped puppy when its scheme is exposed.

CABINET RECONSTRUCTION.

The rumor that Mr. Meredith, leader of the Opposition in the Ontario Legislature, is to be taken into the Dominion cabinet, is repeated with considerable persistence. It is well know that he is the particular choice of J. C. Patterson, chairman of the Conservative organization in Ontario, and there are many other decent Conservatives who would like to see a man of Mr. Meredith's good reputation and ability added to the ministry at Ottawa. Will Mr. Meredith find any inducement sufficient to take him to Ottawa? It would undoubtedly be a great sacrifice on his part. Besides, his removal from the Ontario Legislature would mean the utter abandonment of the fight against Mr. Mowat, for there is none other who could lead the Opposition there with any show of success. Speaker White and Clarke Wallace are also frequently mentioned as coming members of the cabinet. The former would make a good minister, but Wallace would add neither ability nor reputation to the Government. His course as chairman of the Public Accounts Coinimittee during the past session cannot have commended him to the country, for he has shown himself to be anxious to cover up instead of ventilate the departmental scandals. Lieut.-Governor Angers and Col. Ouimet are mentioned as the probable successors of Langevin and Caron. Nothing is said of replacing Chapleau with some politician whose skirts are clean. Possibly the Government cannot dispense with the services of the Secretary of State, even if his reputation has suffered. What with the reconstruction of his cabinet and the necessity of facing the people at the bye-elections, Premier Abbott is likely to have a bad time.

EDITORIAL NOTES.

It is rumored that Dr. Montague, the windy representative of Haldimand, is about to "pull up stakes" and move west—how far west is not stated. There is a protest filed against his return for Haldimand, which may or may not have something to do with his removal.

Whenever the Ottawa Government undertakes to appear economical, it is invariably mean. On the occasion of the strike recently among the mill hands at the capital the militia was ordered out to protect the mill property. It now appears that extra clerks in the departments who turned out as members of the militia were docked a day's pay by the Government.

Hon. C. H. Tupper, Minister of Marine and Fisheries, has left Ottawa for New York, it is said in connection with the case of the sealing schooner W. P. Sayward, which will shortly come up before the Supreme Court at Washington. The Behring Sea situation has been changed since the suit was entered, but it is to be supposed from Minister Tupper's undertaking this errand that the case is to be pushed to an issue.

Sir Hector Langevin declines to be snuffed out. He has retired to Quebec, he says, only for a rest, and is not yet done with public life. Next session he promises to re-appear at Ottawa, doubtless with the intention of making it warm for some of those who have contributed to his downfall. His organ at Three Rivers, the Trifluvien, says:—"All that we know is that Sir Hector is full of vigor, that the country needs him, and that the Conservative party stands in the face of a well-defined line of conduct, which it must follow." It is possible that Mr. Chapleau is not so nearly free of Sir Hector as he imagined. Wait till the ex-minister comes to the aid of Premier Abbott in the work of purifying Canadian politics, and there may be more "wigs on the green."

Hon. Thomas McGreevy has lost not only his seat in Parliament but his suit with his brother Robert. When the charges were first made against Thomas in Parliament he entered a denial and wailed pathetically over the manner in which he said his brother had robbed him. He sued Robert for a settlement of accounts, claiming a balance of $170,000, and this suit seems to have been the cause of his exposure. Robert entered a cross suit against Thomas, claiming that there was a balance due him. Judge Routhier in the Superior Court at Quebec allowed Thomas a balance of $54,006, and threw out his brother's cross claim. That judgment has now been reversed by the Court of Review, which not only throws out Thomas' claim but allows Robert $2000 on his suit, the whole with costs against Uncle Thomas.

ENCOURAGING TRAVELERS.

TO THE EDITOR:—As a stranger in the city I feel that I ought to try and express both on behalf of myself and others the appreciation felt by all, for the efforts made by the tramway company to facilitate *walking* to and from the exhibition which has just closed.

I understand that Mr. Higgins is the very life and soul of that association, acting sometimes as superintendent, manager, motorneer, &c., as the fancy takes him. So to him I turn to express my admiration of the excellent management by means of which a pedestrian could reach almost any part of the city long before the cars.

Victorians should always remember the favor he did them in accepting a charter from them at all, and that, no doubt, consoled many of them when paying the extra 5 cents demanded for the few hundred yards outside the city limits.

As an advertisement of business rush and energy it was an immense success, and doubtless many carried to their distant homes a kindly feeling for the welfare of the gentleman who so exerted himself for their physical well-being.

WARSPITE ATHLETIC SPORTS.

A Gala Day at the Canteen Grounds, Esquimalt.

A couple of hundred ladies and gentlemen accepted the invitation of the officers and men of H.M.S. Warspite and attended the athletic sports held by them in the canteen grounds to-day. A grand stand had been erected and was soon filled with ladies and gentlemen, who from 10 o'clock this morning until late this afternoon watched as interesting a tournament as has been held in the Province for some time. All joined heartily in the sports, making them lively and well contested. The Warspite band and minstrels were on the grounds, enlivening and amusing those present. The grounds were decorated with bunting and flags, which with the ladies' bright costumes, the uniforms of the officers and men, made the grounds look better than they ever have done before. The men of C Battery joined with the seamen in the sports, which consisted of every kind known to athletes. The tournament was held under the auspices of Rear Admiral Hotham, C.B. The officers were: Referee, Captain Hon. H. Lambton, R.N.; President, Commander E.P. Jones, R.N.; committee and judges, Staff Commander C. Bowden, R.N.; Major R. B. Kirchoffer, R.M.L.I.; Lieut., Hon. H. S. Stanhope, R.N.; Lieut. J. G. Hewith, R.N.; starters, Lieut. Sir R. K. Arbuthnot, R.N.; Lieut. A. P. Ethelston, R.N.; sub-committee, Jno. Dowling, Grs. Mte. Alfred Eldridge; Torp. Art., Wm. H. Thomas; Torp. Inst., Abel Beynon; Lg. Sto., Corp. J. Illingworth, R.M.A.; Geo. Rice, Lg. Sea; hon. secretary and treasurer, Albert G. Mills, writer. About $300 was given in prizes.

No Longer Gravel Pits.

On Monday next Mr. J. Davies will sell for the city assessor that property at Spring Ridge known as the gravel pits, but which has been graded and divided by streets into very desirable city lots. The situation is good, and as the street cars will soon run out that way, fair prices should rule.

Discharged and Charged.

James Imbert, a lad of about 18 years of age, was introduced to his honor this morning. He was charged with discharging a gun in the park. The charge, or rather discharge, was proven, and a penalty of $5 was imposed, to be paid on or before Monday next. A homily on the evils of indiscriminate shooting was also delivered by the court.

Wants it Entered Free.

The Slough Creek Mining Co. is making ready to develope its property on Slough Creek, Cariboo. The plant, including a hydraulic and jetting process machine, is now in Calgary, and Mr. Charles Ramos is at present in Victoria for the purpose of getting it through the customs. The machinery is manufactured in Illinois, and is claimed to be included in the class placed on the free list.

The Carmanah Point Station.

Capt. Barry, of the steamer Maude, who passed Carmanah Point on Friday during a dense fog, speaks highly of the new foghorn recently erected there. When he passed the horn kept up continual and loud blasts, which will be a great aid to navigation. There have been several wrecks at this point, the latest having been an American schooner, which was dashed to pieces last year, but the new light and foghorn will prevent similar occurrences in the future.

Railroad News.

The Northern Pacific R.R. Co. will shortly extend the Anacortes and Skagit branch to a connection with the Washington Central, in the Big Bend country. Bonds for this road have just been floated for immediate construction. The delay in this matter up to the present time was for the purpose of discovering the intentions of the Great Northern, which are not made evident by the filing of maps of location. This will, no doubt, lead to a joint connection between Anacortes and Victoria.

Who is to Blame?

Several gentlemen who intended to go to Vancouver this morning waited up all night for the steamer Yosemite which arrived at 3 o'clock. Two of their number went down to the wharf and enquired as to what time she would leave. On being told that she would not go until 7 o'clock they went back to the Oriental hotel, and went to bed. The clerk called them at 5:45, so that they would have lots of time as he thought to get their breakfast. They went down to the wharf and found the boat had gone. They were back at the hotel at 25 minutes to 7, so that the boat must have left over half an hour before the time mentioned to them. They were naturally somewhat annoyed over the mistake.

The Coming Treat.

The New York World of the appearance of Innes' Band in that city says: "The singing of the soloists was especially brilliant, and there was much enthusiasm. The band numbers which were the most favored were the fantasie on the famous songs of Tosti, the sextet from "Lucia di Lammermoor," performed on cornet, French horn, euphonium, saxophone and trombones, and the "Tower of Fame" march. The last was played for the first time. It is one of Mr. Innes's compositions, and is dedicated to Madison Square Garden. Miss Louise Tanner, soprano; Miss Henrietta Weichmann, contralto; A. L. Guille, tenor; and Sig. Imano were the soloists. It was the last appearance of the wonderful French tenor and he sang superbly."

The Right Kind of Feeling.

Mr. F. W. Elwortny, secretary of the Board of Trade has received a letter from the secretary of the Commercial Club of Tacoma, thanking the board for the action they took regarding the Tacoma exposition and the excursion on Saturday. In conclusion the letter says: "If your citizens come to our city for the purpose of visiting the exposition during the coming week, I can assure you they will meet with a hearty welcome both by the exposition company and by the citizens of Tacoma; and if any of your Board of Trade visit this city at the same time, or any time in the future, I can assure you it will afford me a great deal of pleasure to have them visit our Commercial Club and to have the pleasure of their acquaintance." The letter ends with the best wishes for the prosperity of the Board of Trade.

Get Tickets for Tacoma.

A great many prominent Victorians have already signified it as their intention to go to Tacoma on Saturday to take in the exposition. Invitations have been issued by the management to Governor Nelson and the heads of the governmental departments, to Admiral Hotham and 20 of the officers of the fleet. There will be plenty of room without crowding on the Olympian, as she will carry over a thousand passengers. The offices of the Union Pacific and Northern Pacific railways will be open until 10 o'clock on Friday evening for the sale of tickets, and as the boat starts at 7 a.m. sharp on Saturday, early purchase of tickets is advisable.

A Dramatic Artist.

Art is recognized in every civilized community as worthy of universal patronage. The works of the great masters of dramatic literature are worthy of the patronage of all. Thomas W. Keene, the eminent tragedian, who is by common consent recognized as the last of the great actors of the school of Garrick, Edmund Kean, the elder Booth and Edwin Forrest, will appear in this city shortly, and his visit should be made memorable in our theatrical annals. As Richard III., he is without a peer on the American stage, which is equivalent to saying that his Richard is the best extant, for no one on the English stage at all approaches him as the hunchbacked tyrant, while his Richelieu, Shylock and Louis XI. are companion portraitures. Make it a point to see Mr. Keene during this visit.

New Infantry Drill.

As the Canadian militia are subject to the regulation of the British army, it will interest our citizen soldiers to learn that a new infantry drill book is to be issued by the British War Office authorities within the next two or three weeks. It is said to contain some striking changes and innovations in tactics. The marvelous accuracy of the new weapons has doomed the close order, or "brick-wall formation," and the day of mathematical movements is over. The section, the fourth part of a company, and not the company is to be the unit of the future. In marching a space 30 inches is to be allowed between men in the ranks, instead of the close huddling of the present, and a distance of two paces is to intervene between ranks at all times. When a regiment is in line distinct intervals are to be observed between the several sections forming a company, as well as between the several companies forming the battalion. Some striking changes in musketry regulations are also made.

"Mac" Does Us Justice.

The Vancouver World contains a highly flattering account of the Victoria exhibition, together with excellent cuts of the new building, the president, and secretary of the association. Mr. McLagan does Victoria the justice to write as follows:—Victoria looked her best. That she is making great onward strides none can controvert. Old rickety buildings are being torn down and in their stead are being erected handsome and palatial business blocks which would do credit to any city. In private residences no other city on the coast can approach Victoria for the beauty of the gardens and general surroundings about each residence. In this respect the capital has, within the last three years, made marvellous strides. In its material prosperity Victoria is keeping abreast of the onward march being made throughout the Province and keeping in line with the Mainland cities, a fact which must be regarded as gratifying to every true lover of this country.

An Interesting Event.

An enjoyable and interesting time was spent yesterday evening at the residence of Mr. John Parker, Craigflower road, when Mr. J. P. Stewart and Miss Alice Parker were united in matrimony. The service was performed by the Rev. Mr. MacRae, Mr. J. E. Scarlett acting as bridegroom, and Miss Stewart, Miss May Stewart and Miss Lilian Vaughan as bridesmaids. The dresses worn by the bride and bridesmaids were superb, and a most pleasant evening was spent. A large number of friends were present and the following valuable wedding gifts were presented the happy couple: Mr. and Mrs. J. Parker, jr., picture and easel; Mr. and Mrs. J. Stewart, knives, forks and spoons; Miss Stewart, silver salt cellars; Mr. J. Stewart, jr., pickle stand; Miss Mary Stewart, napkin rings; Mr. and Mrs. Walker, card receiver; Mr. and Mrs. W. DIRECTORS' MEETING.

The Directors of the Jubilee Hospital Meet—Business Transacted.

The few directors of the Provincial Royal Jubilee Hospital who met at the hospital late yesterday afternoon, disposed of a lot of business. Vice-President Hayward occupied the chair, and a quorum, consisting of W. M. Chudley, A. Wilson, Jno. Braden, Thos. Shotbolt and I. Braverman, was present.

The resident physician's report was presented. It referred to the different wants of the hospital, and also to the scheme for forming a school for training nurses. The board requested the doctor to proceed with the establishment of the institution as proposed by him.

The visiting committee reported 51 patients in the hospital, all comfortable in the different wards, and that every department was working satisfactorily. The ambulance, towards which Major Dupont has offered $500, will soon be in service, the medical superintendent having been authorized to report at the next meeting as to what style of ambulance would best suit the wants of the city.

The treasurer's report particularly calls attention to the liberal aid to the institution during the month of September. Mesdames Adams and Williams' donation of 35 suits of night clothing, and Mrs. McTavish's endowment and annual donation of $250 for the privilege of nominating to a bed, received the thanks of the directors. The other donations were: Clothing, Mrs. A. A. Green; pears, 3½ bushels, Mrs. McLean; clothing, Mr. Earle; flowers, Mr. Helmcken; "Graphics," Master Fell; flowers, Miss Hyams. The recent help of the Ladies' Auxiliary was also touched upon in the treasurer's report. The ladies have greatly improved the state of the finances.

It was decided before adjourning to build an additional room to the hospital for the purpose of disinfecting linen.

BARK NODDLEBURN ARRIVES.

Report by Her Captain of a Disabled Tug Off the Cape.

British bark Noddleburn, Captain H. Hall, with general cargo for New Westminster, sailing from Glasgow on the 18th May, arrived in this morning in tow of the tug Pilot. Capt. Hall reports exceptionally heavy weather around Cape Horn. All hands are well, however, and outside of the gales encountered, nothing of special interest transpired on the voyage until the vessel was off Cape Flattery. Capt. Hall has handed in the following report of that date:—

On October 6th, at 6 p.m., was taken in tow about 30 miles S.S.W. of Cape Flattery by the American tug Mogul. At 7 p.m. the tug hailed us that they had broken down, but hoped soon to be in working order again. Shortly after they hailed us to let go their hawser, and put our head off shore, which we did and made sail. Dropped tug's light at 10 p.m.. Stood to westward for 10 miles and stood in again to the eastward for same distance, but did not again pick up the tug's light. Wind then veering to the E.N.E., tacked to the northward. Wind very light all night and weather very fine until daylight, when it freshened to a smart breeze from the E.N.E. As the tug did not again seek us, the probabilities are their damage was more serious than they anticipated, and I should think it strongly advisable that these facts should be wired to the owners of the tug. Should judge her position when we last saw her to be 25 miles S.S.W. of Cape Flattery.

The Noddleburn goes on up to New Westminster this evening.

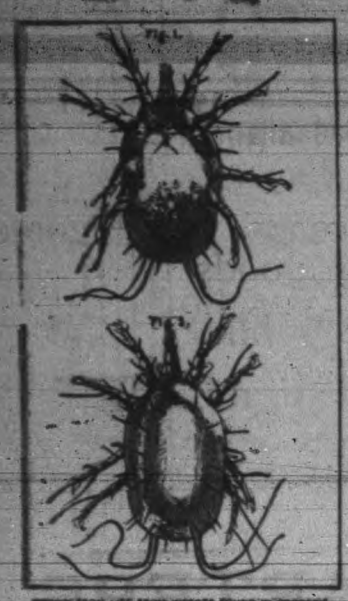
CHINESE - SUGARS; - WHAT - IT - IS - WE - MAY - BE - EATING!



DRAWN FROM LIFE FROM INSECTS FOUND IN GROCERY

In view of the introduction to the Province recently of considerable quantities of Chinese Sugars, it may be as well that the Public should be informed, on the very highest possible authority, of the danger that may be attendant upon their use.

Professor Cameron, Public Analyst, Dublin, a gentleman who has made it his special business to examine all kinds of Foreign Sugars, Refined and other, says that certain kinds of them should never be used. He states that they contain great numbers of DISGUSTING INSECTS, which produce a DISGUSTING DISEASE. Their shape is very accurately shown in the accompanying cut, which is magnified two hundred diameters. Figure 1 is the under side, and Figure 2 the upper. The Professor's description is as follows:—

"This insect ('the Acarus Sacchari") is a formidably organized, exceedingly lively, and decidedly ugly little animal. From its oval-shaped body stretches forth a proboscis terminating in a kind of scissors, with which it seizes its food. Its organs of locomotion consist of eight legs, each jointed and furnished at its extremity with a hook. In the Sugar its movements from one place to another are necessarily very slow, but when placed on a perfectly clean and dry surface, it moves along with great rapidity." He adds that the number of "Acari' found in Unrefined Sugar is "sometimes exceedingly great, and in no instance is the article quite free from either the insects or their eggs." He further says:—"The Acari Sacchari" do not occur in Refined Sugar of any quality, because they cannot pass through the charcoal filters of the Refinery, and because Refined Sugar does not contain any nitrogenous substance upon which they can feed."

COOLIE - MADE - AND - ALL - UNREFINED - SUGARS - SHOULD - NEVER - BE - USED!

Besides its being impossible for Canadian Labor to compete with Coolie Labor, rice fed and under paid, it is well known that Eastern Countries have always been the breeding ground for leprosy and all other loathsome and horrible human diseases, and hand labor there is so cheap that there is no inducement to employ machinery. Home Refined Sugar, on the contrary, is never touched by the human hand from the moment it reaches the refiner until it leaves him a perfectly safe and purified article.

Use, therefore, Only Home Refined Sugars; They Are Absolutely Unadulterated, Pure and Cheap.

NANAIMO NEWS.

The Conspiracy Charge Against the Union Miners—He Was Not Robbed.

NANAIMO, Oct. 7.—The court opened at 2 p.m. yesterday, for the hearing of the conspiracy charge against the miners. The bench was composed of Mr. J. F. Planta, S.M., Mayor Hilbert, J.P., M. Bate, A. Shaw and D. Smith, all J.P.s. The charge was read by Mr. Planta against Keith, Boyce and Wilson of knowingly conspiring together for the purpose of preventing one Wilson Pyper of getting his lawful living. He further said it was merely their duty to find out if there was a *prima facie* case against the defendants.

Mr. Eberts, of Victoria, appeared for the prosecution, and in opening the case for his client, said he thought he could not give a better definition of conspiracy than that given in Wright on Conspiracies. He also quoted other authorities, showing the different views taken in similar cases. He explained that Wilson Pyper had been a resident of this Province for the past four years, and until lately followed the avocation of a miner, in which occupation he had given satisfaction to his employers. Some time ago a society called the "Miners' and Mine Laborers' Protective Association" was formed in this city. Here he read the rules of the association and its aims from a copy of the constitution of the order. He claimed it was necessary for them to confine themselves within the objects of the society. He then carefully reviewed the inauguration of the strike, and followed up the association from that time to the present, and showed the effect they had in controlling those belonging to the association by their having to pay an assessment to support the locked-out miners, part of which had been paid by Wilson Pyper, who, after having paid it some time, was dissatisfied with the manner in which the funds were handled, so he refused to pay any longer. In consequence of this decision he was denounced by Tully Boyce and others, and the outcome was the passing of a motion at a mass meeting to have all miners discharged who refused to pay the assessment. He argued that no society should pick upon a single individual and have him prevented from earning his living. It must not be thought the prosecutor was taking this action from any malicious motive or spite, but from a desire to obtain his lawful rights for the injury done him. Counsel here stated he would have to ask for an adjournment, as Mr. Robins had to be served with a subpœna as soon as he came back. They were about to serve him with one when he requested that they would wait a day or two, and in the meantime he had gone to California.

The bench was of the opinion now would be the proper time to ask for an adjournment. After a little consultation between the counsel, it was decided to adjourn the case for one week.

NOT ROBBED.

The man named Frederick Hunke, who died a few days ago at Wellington, was reported to have been robbed by his friend. Such, however, was not the case, as all the money, about $400, with a bank book for $900 and several watches and chains, were found hidden away in a tin canister in the wall of one of the rooms. Constable Stephenson was the finder, and in doing so lifted the suspicion that had fallen on the friend of the deceased.

LITTLE HAPPENINGS.

The Distress in Russia.

ST. PETERSBURG, Oct. 7.—The Grashdanin announces that the officers of the Imperial Guard have decided not to drink champagne at any regimental banquets and to contribute the money which would have been so spent to the peasants in the famine-stricken districts. All classes of citizens here, following the example of the Czar, have resolved to abandon all entertainments during the winter and contribute the money thus saved for famishing people. Most of the public officials announce their intention to devote a certain percentage of their salaries to the same purpose, and the workmen have decided to give a proportion of their humble wages. Even the children will offer their little savings. Collections are being taken in all the churches every feast day. A stream of relief is coming in through wide channels, but the system of distribution, it is said, is very defective.

CONSCIENCE!

An Important Object to Cultivate—Avoid Those who Have no Moral Principle!

We should at all times endeavor to cultivate conscience. It is an important object in every department and stage of moral education. The strength of this principle, as an active element of character, differs greatly in different individuals. Conscience is a conviction that certain actions are right and others wrong, the sense of duty, moral principle.

The need of a proper cultivation of conscience is apparent to us every day. At this time we will merely mention two classes of men who need a certain cultivation of conscience—a training that will enable them to distinguish right from wrong.

The compounders of certain patent medicines and nostrums, which are given to the public as cures for all diseases that flesh is heir to, are men void of conscience, principle or morality. They deserve severe censure and condemnation, as their remedies, in every case, aggravate disease and suffering.

Then we have a certain class of men who advocate the continuance of the obsolete and condemned methods of cure. Many of them have been educated in the old ruts of medical knowledge, and have not the courage to cast old formulæ aside.

These people should be shunned by the nervous, weak, sleepless, rheumatic and dyspeptic. Such sufferers have found that advanced science has given them a preparation that cures, a remedy that is unfailing in good results. The Christian world looks on and wonders; and all good people have blessed the day that gave them Paine's Celery Compound. Many worthy people have considered the cures miraculous, and have become amazed at the grand efficacy of this wondrous medicine. Try Paine's Celery Compound, poor sufferer, and find the desire of your heart—new life, strength, robustness, happiness and long life.

True Faith.

"I have great faith in Burdock Blood Bitters as a blood purifier. I have taken three bottles for bad blood and find it a perfect cure. It is a grand medicine and I recommend it wherever I go."—Ida Sanderson, Toronto, Ont.

The industry, it is estimated, will give employment to a thousand men there, and two thousand in the mines at Coe Hill and other points north. The proposal is favorably received.

Mr. Phillip Holton Gilbert, of Montreal, was married on Wednesday morning last in Queen Street Methodist Church, Kingston, by the Rev. Salem G. Bland, of Quebec, to Miss Flora Britton, eldest daughter of Mr. B. M. Britton, Q.C., of Kingston. As the bride's father is one of the most distinguished of the Ontario Provincial lawyers, and as the family enjoys considerable social prominence, this marriage was quite a social event, the bride and bridesmaids being elegantly attired, and large numbers of people turning out to witness the ceremony.

Twenty-seven years ago J. D. Abbey, of Clayton, Ont., left home and was never heard of until last week, when he reached Almonte to enquire for friends. He discovered his sister, Mrs. Jos. Although almost ruined by this catastrophe, he was not discouraged, and went to work again with renewed energy. Success was once more his lot, when he sold out his lumber interests and went over to Minnesota, where he went into farming and ranching, and where he now resides.

The graders on the C. & E. Railway are at work about nine miles north of Macleod. The rails are laid within four miles of High River, where there would be some delay waiting for the completion of the bridge. Arrangements had only been definitely made for rails to reach Mosquito Creek, and the chances are that track laying will not be continued south of that point this fall. There is a chance, on the other hand, that rails may be forthcoming in time to finish the ironing to the end of the grade. The grade will be finished this fall to the north bank of the Old Man's River, and that is where the end of the track will remain until it is decided to go on with the southern extension of the line to the boundary. While the exact point where the railroad will strike the river is not yet known, it is pretty certain that it will be close by the traffic bridge.—Macleod Gazette.

A Bruiser Bruised.

WILKESBARRE, Pa., Oct. 8.—Edward Boone, a prize fighter, is lying at a hotel in Berwick in a very precarious condition from a beating received from Hudson Kline, another fighter. The men are well known as local bruisers in Berwick, and have had some trouble over a girl, which resulted in an agreement to fight four rounds for blood. The fight was a terrific one while it lasted, Boone being knocked out in the third round. His jaw is broken, his face is badly cut, and there is a large swelling on his left side near the heart. Kline is in hiding, and the police are looking for him.

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.)

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL

(Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL

(Steam Fuel).

THE NEW WELLINGTON COAL

House and Steam Coal are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power unequalled by any other bituminous Gas Coal in the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used on all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

A BY-LAW

To authorize certain officials to borrow money to meet current expenditure.

WHEREAS by Sub-section 133 of Section 96 of the "Municipal Act, 1891," it is enacted that the municipal council of any city in the Province of British Columbia be authorized under the conditions there expressed to borrow from any person such sum of money and bearing such rate of interest as may be requisite to meet the current legal expenditure of the corporation which becomes payable out of the annual revenue before the revenue for the year becomes payable by the taxpayers;

AND WHEREAS it is found necessary in order to meet the current legal expenditure of the Corporation of the City of Victoria to borrow the sums of money hereinafter mentioned in accordance with said Sub-section 133 of Section 96 of said "Municipal Act, 1891."

THEREFORE BE IT ENACTED by the Mayor and Aldermen of the Corporation of the City of Victoria as follows:

1. It shall be lawful for the Corporation of the City of Victoria to borrow from the Bank of British North America such sums of money as may be requisite to meet the current legal expenditure of the said Corporation which becomes payable out of the municipal revenue, and the amounts so borrowed shall be repayable and repaid on or before the 31st day of December, A.D. 1891, out of the municipal revenue for the said year.

2. The amounts so borrowed shall not exceed in the whole the sum of Two Hundred and Fifty Thousand Dollars ($250,000), and the rate of interest payable thereon shall not exceed the rate of six per centum per annum.

3. The obligation to be given to the said Bank shall be in writing signed by the Mayor and the Clerk of the Municipal Council of the said Corporation and shall be in the form of a promissory note and shall bear the corporate seal of the said Corporation.

4. All agreements for advance heretofore made from said Bank are herby confirmed.

5. The "Bank Credit Amendment By-Law, 1891," is hereby repealed.

6. This By-Law may be cited as the "Bank Credit Amendment By-Law, 1891, No. 2."

Passed the Municipal Council the 23rd day of September, A.D., 1891.

Reconsidered and finally passed the Council this 5th day of October, A.D., 1891.

FORGERY ALLEGED.

A Real Estate Agent up on a Serious Charge —Committed for Trial.

James C. Bennett, appeared in the police court this morning, charged with forgery. Bennett is, or was a real estate dealer. A few weeks ago he left a promissory note for $150 purported to be drawn by Mr. Joseph Bayley of the Half-way House, with a gentleman of this city, as security for a $100 loan. Subsequent enquiry elicited the information that the signature to the note was a forgery. Mr. Bayley's signature being nothing like the one on the note. The case was placed in Officer Redgrave's hands last evening, and in company with Officer McNiel, of the provincial police arrested the prisoner at his home near Parson's bridge.

The first witness called was J. B. Jones, who deposed that on the 18th of August last, just after prisoner had been released from another charge, prisoner had borrowed from him a sum of money and left as security the note, or draft, which it is now claimed is a forgery. Witness stated that sometime after the above transaction, he took the draft to Mr. Bayley's wife, as it was drawn on her. The lady would not recognize it. Later he presented the note to Mr. Bayley, who said the signature was not his. Soon afterwards witness saw prisoner, and told him that Mr. Bayley had stated the draft was a forgery, and witness asked for the money he had advanced.

In answer to Mr. Irving, who appeared for the defense, witness stated that the date of the first transaction was upon after Bennett had been released from custody on another charge. Witness said he did not like the look of the note; had seen Mrs. Bayley about the 25th of August on the matter and Mr. Bayley the day after, had seen both prisoner and Mr. Bayley since that time; when prisoner was told that Mr. Bayley denied the signature, prisoner had emphatically asserted that it was genuine; Mr. Bayley had come to witness soon after in reference to the matter, and inferred it was by prisoner's request; knows Mr. Peacock, and had conversation with him regarding the matter; believe Mr. Peacock had said that the note was good; prisoner had on all occasions asserted the signature of Mr. Bayley was genuine; believed that mention was made by prisoner of the fact that witnesses saw Mr. Bayley sign the note; had never had any business with Mr. Bayley, and he did not owe witness any money.

Joseph Bayley deposed: Keep the "Half Way" house; know prisoner, had offered to sell for him at one time some Port Angeles property. The signature on the note or draft is not witness'; had never given prisoner an order for money, had never owed prisoner any money. (Here at the request of the court, witness signed his name.) Witness continued: Was always particular when he signed a document to have a witness.

To Mr. Irving—Object to signing another signature, (objection overruled by the court. Witness then signed his name on several pieces of paper). Continued: Name on document is good imitation of my signature; would not swear whether it was or not; do not believe it is mine, but would not swear to it; first met prisoner about three or four months ago; had at one time offered to sell by auction some Port Angeles property for prisoner; as a sale the matter was not a success; prisoner had not paid any of the expenses; not aware that prisoner had complained that the sale was a failure on account of the auctioneer having drunk too much; had at one time told prisoner if he could get a customer for some property he would pay a commission; executed a deed on Sunday; have since found it was valueless; this deed and a power of attorney had been prepared by Mr. Peacock under instruction by prisoner; went across the Sound on the 16th August to do some business at Port Angeles; signed a paper on that day in Mr. Peacock's office; afterwards went to have a drink in the American Saloon; had a gun and two dogs; prisoner was with me; had a drink or two; did not sign any papers there, to my knowledge; prisoner did not ask me for $150 for services, rendered; had a drink or two, but was sober enough for business when in the American Saloon; had never had any conversation with Mrs. Bennett in reference to an order; generally my custom to have a witness to my signatures; when signing checks I do not have a witness.

To His Honor—The order is not in my wife's handwriting. Signature on paper produced is mine

Mr. Irvine at this point asked to place witnesses in the box to show that Mr. Bayley did sign the order, and asked that their evidence be taken and the case dismissed, or bail arranged for.

Mr. Belyea said that he was not trying the case, and as Bayley had distinctly sworn that the signature was not his, he did not see how the matter could be otherwise dealt with than being sent up for trial at a higher court. However he would allow of the defense being heard.

Stroud L. Redgrave, arresting officer, said that when prisoner was arrested he had denied that the order was a forgery

George Shea deposed:—Know the prisoner; saw him in the American saloon some weeks ago; was in company of Mr. Bayley at the time; prisoner asked for pen, ink and paper, stating he wanted Mr. Bayley to sign a note; gave him a small tablet; both Bayley and prisoner went to a table and did some writing; heard prisoner ask Bayley to sign the note; heard no more; could not say who did the writing; Bayley went to the table when asked to sign the note; did not see him sign it; the paper on which the order was written I can recognize as paper I gave them, as the corner was torn out.

To Supt. Sheppard—Did not know the nature of the note; did not see Bayley sign it; cannot swear the sheet of poper is the same.

To the Court—Bayley was sober to all appearance.

A. Philip Peacock deposed:—Know both the prisoner and Bayley; had done work for them; saw deed (produced) signed; both left my office together; an arrangement had been made with witness to meet Bayley again and later saw them; Bayley had been drinking some; prisoner had told witness that he, prisoner, had a note from Bayley for $150; did not think Bayley heard that statement.

His Honor was of the opinion that no other course was open to him but to commit prisoner for trial. Bail would be allowed, two sureties in $250 each and prisoner in $500.

PUBLIC NOTICE.

WHEREAS His Honor the Lieutenant-Governor-in-Council of the Province of British Columbia, has granted me a *Petition of Right* against the Crown, to set aside two Crown Grants, viz.: two Lots, 538 and 94, given to Sir Donald A. Smith and Richard H. Angus, for 6,000 acres of land in the City of Vancouver;

And whereas the case is now pending trial in the Supreme Court of British Columbia, all parties are warned not to purchase any land contained in the above-named grants, as they were issued unlawfully, without any Statute, or Act of the Legislature, or any consideration in money.

And further, that I am owner of Lot No. 1003, situated on English Bay, and within the above-named grant, *as shown by the District Register;* and all parties are warned not to purchase or negotiate for any of the above-named Lot No. 1003.

SAMUEL GREER.
Vancouver, Oct. 5, 1891. oc8-1m

THE GREER ESTATE.

NOTICE.

ALL PERSONS who have purchased lots in the above estate are respectfully requested to forward to box 185, Vancouver P.O., any sum or sums of money they may feel disposed, which amounts will be duly acknowledged and receipts therefor forwarded as credit on back payments, to meet the necessary expenses in three suits now pending, viz.: One criminal and two civil. I have not compromised any who may have purchased property in the estate referred to, with a tyrannical company, well knowing my many friends would stand by me. The darkest hour has arrived. My petition of right will be carried to the foot of the Throne and the six thousand acres, the Canadian Pacific Railway land grant, must fall to the ground. Justice will yet be had.
